CITY OF BUFFALO

LEAD PAINT NOTICE FORM

.....

LANDLORDS: KEEP A COPY OF THIS SIGNED FORM IN YOUR RECORDS
TENANTS: KEEP A COPY OF THIS SIGNED FORM IN YOUR RECORDS

The building at _____ was built before 1978.
[address]

There is a high likelihood that wood surfaces were painted at some point with paint that contains lead.

Lead is hazardous to human health and particularly to pregnant women and children under the age of 6. Lead concentrations in a child's body may result in decreased IQ, behavioral and other developmental problems.

Lead paint chips and lead dust may be eaten or inhaled by children when there is chipping and peeling paint on the premises, especially on windows and in window sills. There may be other sources of lead in the house as well, including water.

If you are pregnant or have a child under the age of 6 and are concerned about lead hazards, the City of Buffalo and Erie County have a program to help. You can learn more about the program by calling 311. The program is available to both tenants and owners of property.
