

If Vendor believes that the utility rate will change as a result of the installation of solar, indicate the potential rate in column 'N'.

Indicate expected capacity and annual production of each project.

Propose \$/kWh rates for each location utilizing the pre - set PPA term. Proposed rates must include fee structure outlined in "Attachment D- Term Sheet". Pricing should reflect REC requirements within the RFP.

Please list the names of any programs the supplier intends to utilize and the time-sensitivities associated with these programs, if any.

Basic PPA Proposal & Site Information

Basic Facility Information / Location			Current & Potential Utility Tariff					Basic Project Information			Proposed PPA & Term			Notes - Incentives						
Facility Name	Annual KWh	System Location	Facility Latitude	Facility Longitude	Sq. Ft	Roof Type	Last Re-roof Date	Anticipated Re-roof Date	Utility Region	Current Utility Tariff	Potential Utility Tariff	Proposed System Size (kW DC)	Proposed System Size (kW AC)	Est. Annual Production Year 1 (kWh)	First-Year PPA Rate (\$/kWh)	PPA Rate Escalator (%)	PPA Term (Years)	Please list local state, utility, or county level incentives you would utilize in the proposal	Confirm Alternex Fee is Included	Please list contingencies to the proposal (if any).
City Court Building	3,540,795	Rooftop	42.8858125	-78.8806131	23,293	SBS Modified	2017		National Grid	SC3							20
